

Four Reasons to Choose our G Series Furnace

1 Easy on You

The Smokeless Loading Handle helps you stay clean while loading and the EZ Clean Handle makes cleaning your furnace a breeze. Our high efficiency furnaces use up to 50% less wood than conventional furnaces. That means less cutting, less loading and less cleaning.

G Series furnaces are CSA approved and UL listed for installation in a garage, shop or outbuilding.

2 Built to Last

HeatMaster^{SS} combines the best materials with expert engineering to create the most rugged, longest lasting furnaces available. We use 409 Titanium Enhanced Stainless Steel which is the only product that provides the right blend of longevity and cost effectiveness to meet our very high standards of excellence.

Titanium Enhanced Stainless Steel:

- Does not corrode from creosote or condensation
- Withstands higher continuous temperatures
- Transfers more heat
- Won't crack or warp in a high heat environment.

Our industry leading **Lifetime Limited Warranty** proves our commitment to quality

3 Energy Independence

Take control of your money and eliminate your heating bill with wood heat. Fossil fuel prices fluctuate but wood heat stays inexpensive or free. You'll even use less wood with our clean burning, efficient technology.

4 The HeatMaster^{SS} Advantage

Our furnaces are backed by an extensive network of professional dealers who are there to help you with expert installation, advice, after sales service and much more.

When you're looking for a new wood furnace system, contact a HeatMaster^{SS} dealer to answer your questions and help you choose the right model for your heating needs.

To locate a HeatMaster^{SS} dealer in your area, go to the dealer locator at

heatmasterss.com

HeatMaster^{SS} Head Office
Toll Free: 1-877-325-9792
Email: info@heatmasterss.com

HeatMaster^{SS} carries a full line of high quality parts for your furnace including pumps, fittings and heat exchangers. For more information on our parts or to arrange product installation please contact your local **HeatMaster^{SS}** dealer.

G SERIES

Ultra High Efficiency Wood Burning Furnaces

HeatMasterTM

Tough on Winter, Easy on You

Engineered to be Tough on Winter, and Easy on You

These are just some of the features that demonstrate why Heatmaster^{ss} furnaces are the best choice for your heating needs:

A Smokeless Loading Handle

Eliminate smoke while loading, just by pulling the handle.

B EZ Clean Handle

Clean the heat exchange tubes quickly and easily and reduce time for maintenance. No brushing tubes or scraping creosote!

C Low Maintenance, High Efficiency Heat Exchange Tubes

Our vertical heat exchange tubes keep ash and creosote from collecting and blocking the tube. Spirals in the tubes ensure the highest efficiency.

D Lifetime Limited Warranty

Our industry leading Lifetime Limited Warranty proves our commitment to quality.

*Well-insulated house. **BTU's are approximate and will vary depending on fuel quality. ***Height of the furnace is to the top of the lift hook.

More Great Features Developed With you in Mind

- **Industry Leading Efficiency & Emissions**
Exceeds government regulations by over 75%.
- **High Efficiency Combustion Chamber Design**
The horseshoe refractory design creates the cleanest, hottest burn (up to 2000° F).
- **Easy Plumbing & Service Access**
Insulated, hinged rear door allows wide open access to the fan & pumps.
- **Sight Glass**
Check the burn process without opening the doors and disrupting the fire.
- **Safety Door Latch**
Latch catches the door so it doesn't swing open and expose you to excessive heat.
- **Recirculation Pump**
Eliminates temperature stratification
- **Modern Finish**
The smooth finish is easy to wipe down and keep clean.
- **Draft Induction Fan**
Draws air through the furnace to maintain gasification while keeping airways open.
- **Rounded Firebox**
Increases strength with fewer welds.
- **Easy to Read Water Level Gauge**
- **High R Value Multi-layer Insulation**
- **Control Panel**
Programmed for an efficient and even burn. The cover protects components from the elements.
